It’s All Greek To Me…

One of the reasons we study mythology is because myths influence our everyday lives. You may not know it, but many words and phrases that we hear on a daily basis come from Greek myths. Your assignment is to research a word or phrase that has its origin in Greek mythology.

Follow the guidelines below to complete your project.

1. You will be assigned a name, word, or phrase found in mythology.
2. Describe the modern meaning or use of the name, word, or phrase (1 paragraph)
3. Describe where the name, word, or phrase comes from (1 page)
   - Retell the story in detail
4. Prepare a presentation
   - Create an oral presentation which you will share with the class
   - Explain the modern usage and the background of your name, word, or phrase – you should be familiar with this and **should not** read it off your paper (notes are acceptable)
   - Create a visual aid for your presentation – you may create a PowerPoint presentation (which must be on a USB drive)
   - Prepare any “extras” to enhance your presentation (audio clips, music, props, reenactments, costumes, etc.)
   - Be sure to include a “Works Cited” page at the end of your project. You must use a minimum of three sources. For every 1 internet source uses (Wikipedia **CANNOT** be used), you must use two books.
   **PLEASE REMEMBER THAT YOU MUST UTILIZE THE MLA FORMAT YOU LEARNED AT THE BEGINNING OF THE SEMESTER!!**

You should be detailed and creative with your project. Many of the myths are interesting and fun, so have fun with it!
