Semester Project

Changing the nature of Immigration

Your project should be 10-15 pages in length, typed, double-spaced, 1” margin, 12pt font. You must use the MLA format style for writing research papers.

Part I: Write a research paper on the nature of immigration to the United States of America. How has the process changed over the years? Has it gotten worse? Has it gotten better? What can be done to help future generations have an easier time of coming into America, than their ancestors before them?

You can focus on any aspect of immigration that you are familiar with, such as:

Assimilation
Finding one’s Identity
Double-Consciousness
Maintaining Cultural ties... etc

PLEASE NOTE: You can only use one internet source for every two books used in compiling information for this project. Your project must have a bibliography otherwise you will be getting a zero.

Date Due: Parts I-II:
Part III:
